

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

Warm Springs Irrigation District

Project No. 13570-002

SUPPLEMENTAL NOTICE OF TECHNICAL MEETING

(October 1, 2013)

As announced in the Notice issued on September 17, 2013, the Federal Energy Regulatory Commission staff planned to hold a technical meeting on October 1, 2013, beginning at 1:00 p.m. eastern daylight time to discuss aspects of the traditional licensing process for the Warm Springs Dam Hydroelectric Project No. 13570 including: the special status species plant survey for *Stanleya confertiflora* requested by the U.S. Bureau of Land Management on June 7, 2013; the coordination of the National Environmental Policy Act analysis; and the overall processing schedule for the project. However, as a result of the federal government shutdown effective October 1, 2013, the technical meeting scheduled for October 1, 2013, will be cancelled and rescheduled for a later date. As the October 1, 2013 meeting is cancelled, additional information regarding rescheduling the meeting will be provided under a separate notice.

Kimberly D. Bose,
Secretary.
